WHO WE ARE

Founded in **1993**, Banjara has a deep-rooted presence in the Indian Himalayas when it comes to hospitality and adventure. Through our experiences we hope to share the same spirit of adventure & exploration with everyone and also bring the best of adventure and hospitality together in doing so, wherever we go.

TRIP LEAD / MENTOR

Popularly known as the "**Snow Leopard Man** of India", **Ismail Shariff** is an internationally featured nature & wildlife photographer, and fine art print-maker from Hyderabad, India.

Ismail is also a conservationist and works with the Snow Leopard Trust to experience ecosystem realities first-hand to educate on the existence and survival of this keystone species. In 2019, he was invited to the Snow Leopard Conservation Conference in Astana, Kazakhstan to showcase his work and findings.

Ismail's philosophy is to create uncommon images with common subjects while promoting awareness around critical issues of wildlife conservation.

SNOW LEOPARD SEARCH

Days 3 to 6

Aided by professional trackers and local guides, search for the snow leopard in the magnificent landscape of the Altai Mountains for the next four days. Most of the observation areas are within 5 to 12 km from our base and can be driven to in a 4x4 SUV. This might be followed by a short walk usually over flat terrain. Occasionally it will entail a short to medium length walk that will demand basic fitness and an ability to walk on rocky, uneven and /or steep terrain.

OUR BASE

We will camp in a traditional Yurts; 3 beds in a Yurt, common camp showers and an eco-loo.

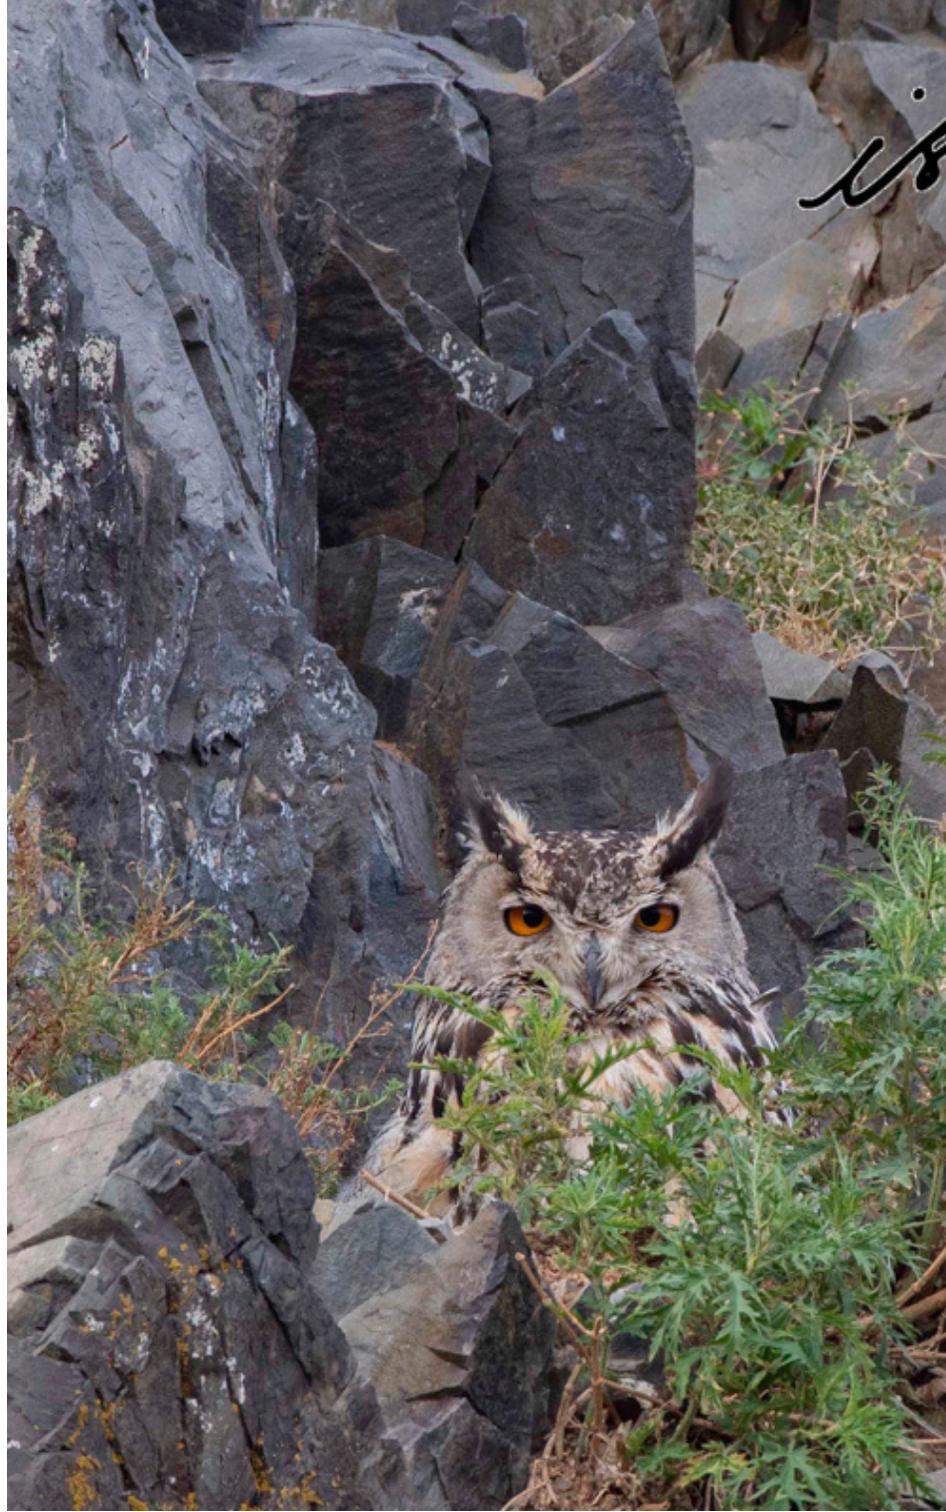

Each unit is provided with a stove heater that will be lit up every night.
